 WO = William Oland

Know the Rules:

- #'s are randomly assigned to the grid.
- Each square will have a different set of #'s for all 4 quarters.
- Since no one knows the #'s each square will be, odds are the same for everyone.
- Each time the score changes, money will be paid out.
- \$100.00 will be given out each time the score changes in the 1st/3rd quarter.
- \$200.00 is given out each time the score changes in the 2nd/4th/OT quarter.
- The individual with square 0,0 will be an instant winner and get the 1st \$100.00
- The individual with the square at the beginning of each quarter will be an automatic winner.
- The individual with the square at the 2-minute warning in quarters 2 & 4 will win \$200.00
- The winning square at the end of the quarter gets the remainder of the allotted amount.
- **Extra Point Rule:** The EP does not count as a scoring change...
whatever the score is following the extra point attempt or 2-point conversion is what will be used.

Payout Grid:

(Allotted Amounts/Qtr)

1st Qtr	\$1,250.00
2nd Qtr	\$2,500.00
3rd Qtr	\$1,250.00
4th Qtr/OT	\$5,000.00

The amounts you see above are the allotted amounts for each quarter. Each time the score changes, \$100.00 or \$200.00 will be deducted from the top. The remainder is awarded to the winning square at the end of the quarter/game.
